| **Name** | Mohammad Rahman |
| **Age** | 58 years |
| **Sex** | Male |
| **Occupation** | Businessman |

## REASON FOR ATTENDANCE

Walked in with central chest pain that started about 30 minutes ago. Looks sweaty and uncomfortable. Triaged as urgent.

## OBSERVATIONS ON ARRIVAL

| | |
|---|---|
| **Temperature** | 36.8 C |
| **Heart rate** | 102 bpm |
| **Respiratory rate** | 22 /min |
| **Blood pressure** | 158/94 mmHg |
| **Oxygen saturation** | 96% on air |

## YOUR TASK

You are the doctor seeing this patient. You have 10 minutes.

- Introduce yourself and take a focused history from the patient.
- Explore the presenting complaint and any relevant past, drug, family and social history.
- Communicate clearly and respond to the patient's concerns.
- At the end, be ready to summarise the case and give your differential diagnosis.

## HOW YOU WILL BE ASSESSED

After you stop the session you will receive feedback on your consultation, your clinical reasoning and your communication with the patient.

Fictional patient created for medical education. Not a real medical record.
